About M&E Consulting, LLC
M&E Consulting is a respected design firm specializing in mechanical, electrical, and plumbing (MEP) engineering. We offer comprehensive services in design, project management, and planning. Our collaborative approach allows us to work closely with clients, helping refine their vision by integrating our experience with similar projects, local regulations, and technical expertise.

Over the past 29 years, our growth and success have been driven by a client-focused philosophy and a steadfast commitment to excellence and innovation.

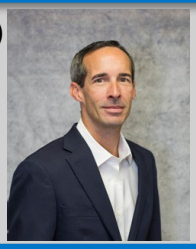

As a certified Service-Disabled Veteran-Owned Small Business, we are proud to support Veterans, Service Members, and their families through our work with government agencies.

Team Support
Keep Ball Moving
Above Board
Document

"Being a veteran and the majority owner of M&E are two of the most meaningful highlights of my career. Now having the opportunity to contribute to the improvement of veterans' care facilities and enhance the overall experience for fellow veterans marks a new and deeply rewarding chapter. As both a veteran and a user of VA services, I have firsthand insight into the critical needs for advancing the quality and accessibility of VA facilities."

- Dustin W. Duval, P.E. (ME, FPE)
Principal, M & E Consulting, LLC.
